1. In December 1949 it was learned that the ammunition depot east of Kolin was being enlarged. The depot stored the ammunition of the Kolin artillery units.
2. The location of the depot is indicated on the attached sketch.
3. The construction of the new depot had not been completed by the end of 1949.
4. The old ammunition depot stored ammunition for light and heavy guns, mortars and light infantry weapons. Incoming shipments arrived by truck. No outgoing shipments were observed. It was the impression that the stocks may be earmarked for issue only in case of mobilization. It is believed that the old depot will be connected with the new one.

Comment:

The report probably refers to the ammunition depot of the Kolin military post where artillery units are known to be stationed.
